**Features of transformation of political values Ukrainian society in post-revolutionary period**

***Abstract.** There analyzed the political values of Ukrainian society in post-revolutionary period. It is noted that the priority in the process of transformation of Ukrainian society is filling the vacuum of values and spiritual foundations of systematic research policy, attract attention of the general public to value problems of our society.*

*The research of political values and ways of their transformation in the modern Ukrainian society is of particular relevance, since values serve as the core of the political system, form the basic criteria of the individual attitude to political life and determine their priorities. So now it is important to clarify their essence and describe the features of the transformation of political values Ukrainian society in post-revolutionary period.*

*Within political science approach revealed that political values are summarized representation, seen as political ideals, fundamental principles of political thinking and evaluation criteria are ideal subjects in political activities.*

*Determined that significant influence on the political values produce: cultural level and the level of the individual, the method of socialization, social and financial status of the individual, sexual, age-old features, and religion that holds a traditional values.*

*Describing the values that formed in the development of Ukrainian society since independence, the system of positive political values as freedom, justice, political stability, civil society, rule of law, political loyalty, tolerance, tendency to compromise, responsibility, conscious, unbiased attitude to change, effective participation in political life, safety, equality, political sovereignty, patriotism,*

*political pluralism, etc. legitimacy. On the role of fundamental values proposed today a national idea and political security.*

*Thus, in the development of Ukrainian society is now an important issue is the transformation of political values as a fundamental component of the political system.*

**Key words:** *value, political value, traditional values of Ukrainian society, European values, transformation of values.*
